This week's assignment I have added search, notification, and bar graph in to the notification drawer:

By selecting Search, it will bring up a fragment which have two text input lines and two buttons, one for searching user and one for searching repositories.

When typing "Christina" into text input for search user, it will bring up a list view of all GitHub user which user id contains Christina or user name contains Christina:
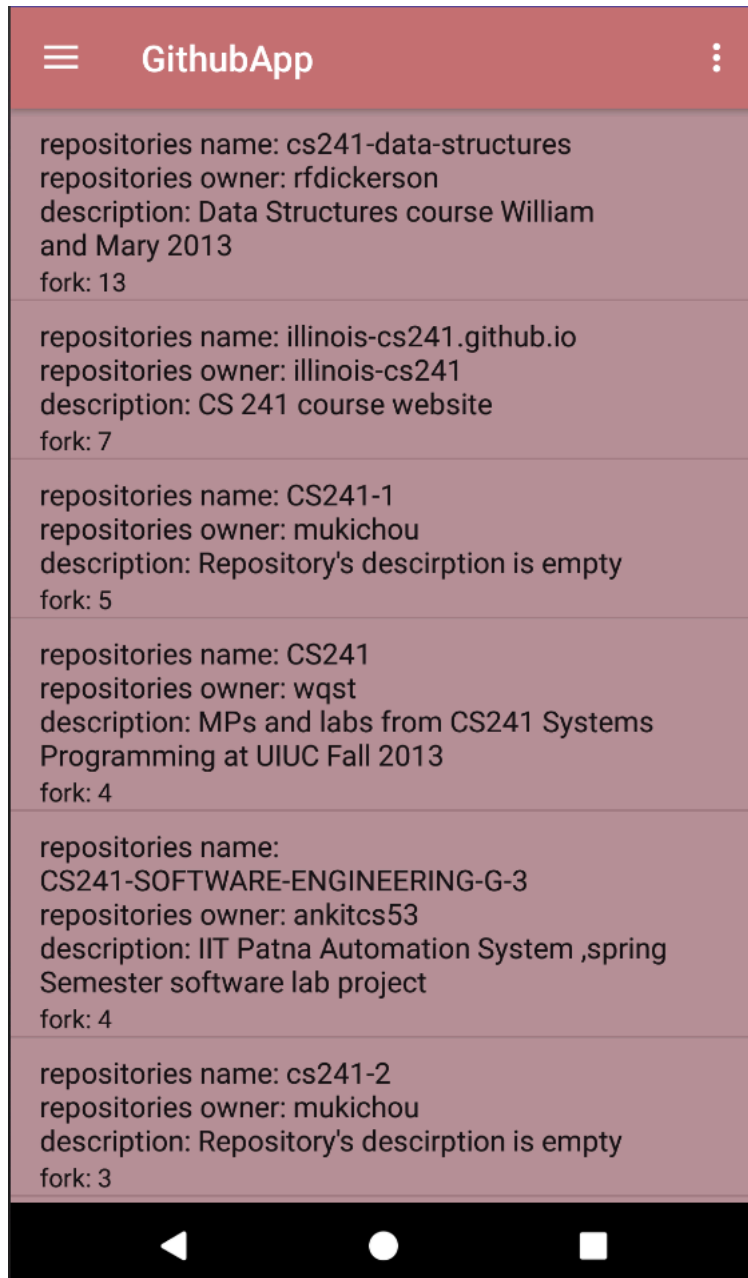

GithubApp

id: cmoulton
user name: Christina Moulton, iOS Dev
Followers: 220

id: christinaa
user name: Kristina Brooks
Followers: 163

id: weimeilin79
user name: Christina Lin
Followers: 142

id: christinac
user name: Christina Cacioppo
Followers: 115

id: cmkoller
user name: Christina Koller
Followers: 110

id: filmgirl
user name: Christina Warren
Followers: 102

id: christinatruong
user name: Christina Truong
Followers: 78

id: cmh2166
user name: Christina Harlow
Followers: 71
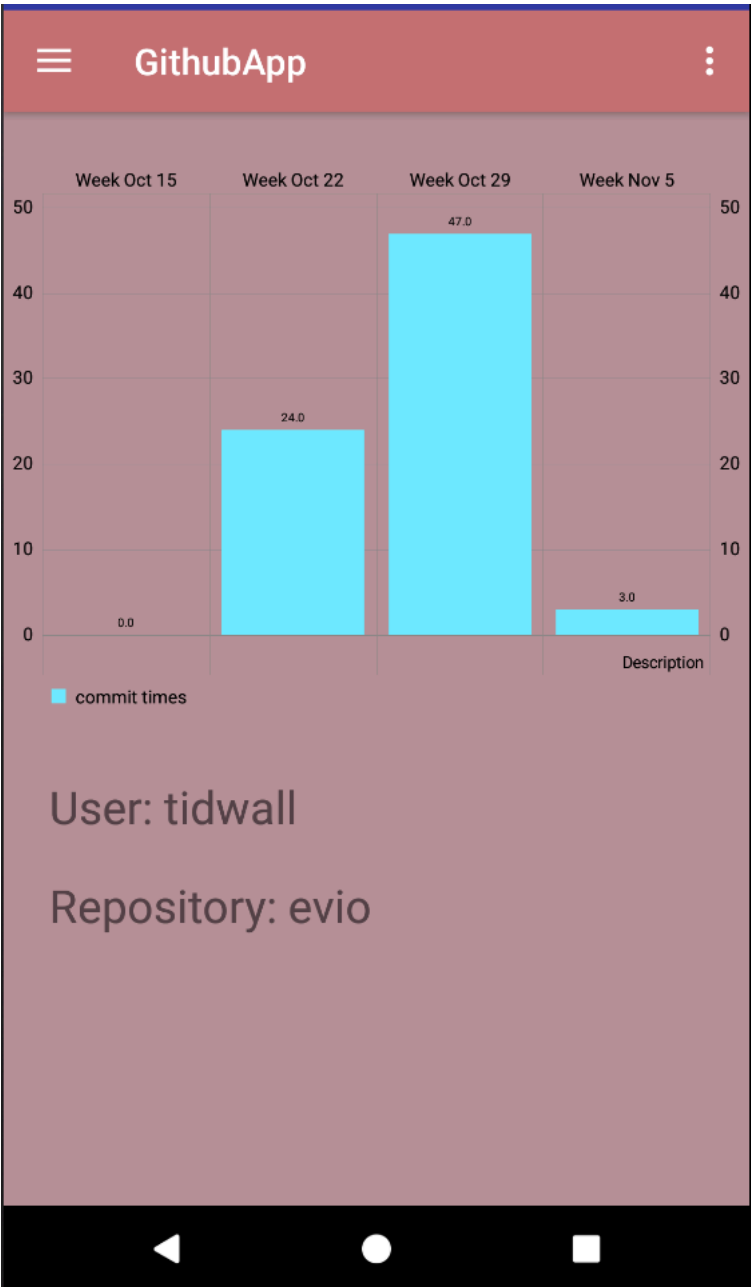

id: liyao
user name: Christina Li

By clicking an item from the list, it will bring up the profile page from assignment3.0

When typing "cs241" into the text input for search repositories, it will bring up list of all GitHub repositories name that contained "cs241"

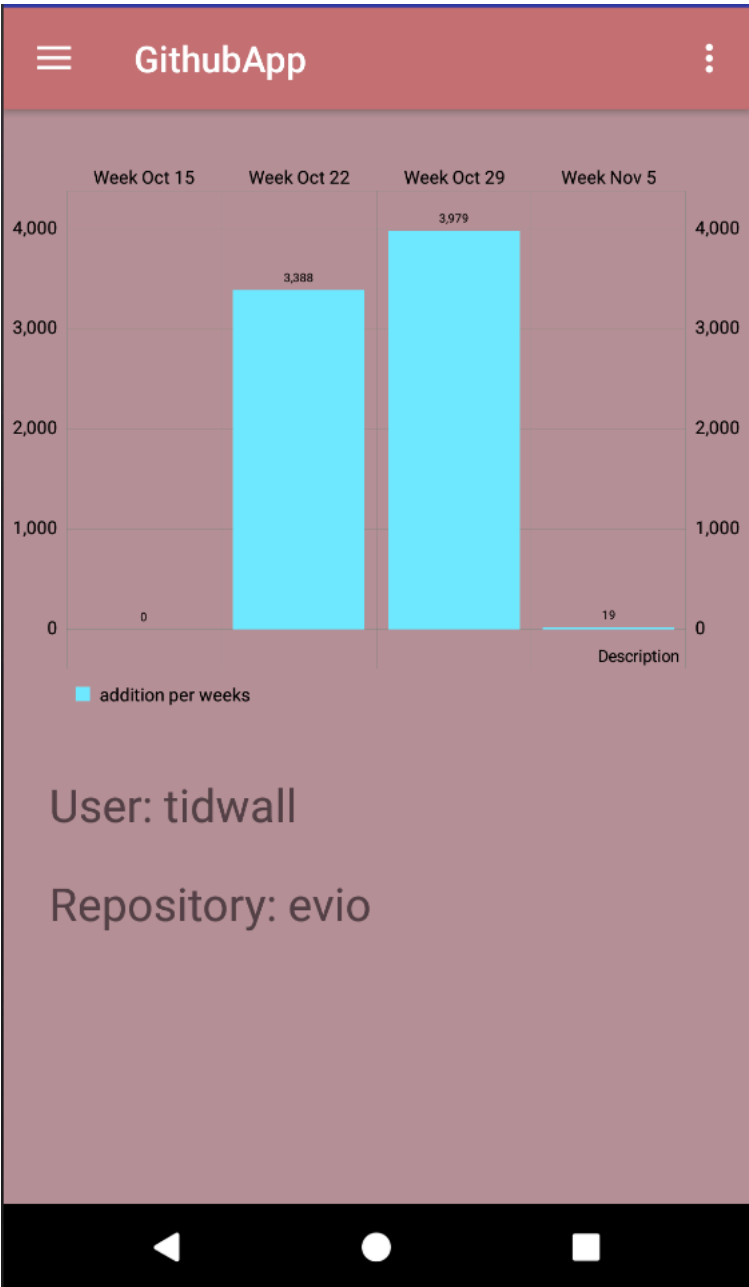

By clicking an item from the list, it will open chrome browser to the repositories.

By selecting the repositories graph commits from the navigation drawer, it will show a bar graph with a specific repository commit times in a past month:

By selecting the repositories graph addition from the navigation drawer, it will show a bar graph with a specific repository addition times in a past month:

By selecting notification from the navigation drawer, it will show a list with the authorization's all notification:
